Turkey 🇹🇷

Dr. Soohong Kim  
Korea 🇰🇷

# Welcome to Antalya, Turkey

**Ki Hong, Kim**

Dear Cowellmedi colleagues and friends,

Greeting!

Ever since the outbreak of the COVID-19 pandemic, we have been asked a lot of times: "When can we get back together?" Finally, it is time to put a period to the question.

I am so pleased to announce that COWELL<sup>®</sup> EMEA Conference taking place in Antalya, Turkey from July 1 to 4, 2022 – in person, and it is such an honor to invite you.

The COWELL<sup>®</sup> EMEA Conference will primarily focus on the advancement of clinical implant dentistry through different types of surgical and prosthetic protocols. Dental treatment using dental implants has become a well-established process in modern implant dentistry as the procedure has imparted clinical excellence. This phenomenon not only leads to remarkable advancement of dentistry but also raises more and more questions.

The COWELL<sup>®</sup> EMEA Conference will embrace comprehensive surgical and prosthetic indications and introduce new treatment concepts based on scientific and clinical evidences. The COWELL<sup>®</sup> EMEA Conference will provide you with a great opportunity to apply something much more practical to your daily practice.

Aside from the academic event, we hope you have an amazing experience in Antalya, as the city offers.

Join us, share your clinical experience and have fun with us!

**KI HONG KIM, CEO**  
Cowellmedi Co., Ltd.

# Objectives

---

- Understand clinical considerations and principles for reconstructive dentistry
- Achieve simpler and more predictable methods for sinus lift and augmentation
- Approach perfect esthetic after bone grafting
- Understand the concept of a novel approach to alveolar bone defects
- Apply simpler techniques for the atrophic posterior mandible Achieve predictable clinical outcomes

# Schedule

---

<b>July 1<sup>st</sup></b>	<b>Arrival &amp; Check-in</b>
<b>July 2<sup>nd</sup></b>	<b>COWELL<sup>®</sup> EMEA Conference, COWELL Night</b>
<b>July 3<sup>rd</sup></b>	<b>Individual Activity</b>
<b>July 4<sup>th</sup></b>	<b>Check-out &amp; Departure</b>

# Speakers & Subjects

## July, 2<sup>nd</sup>

Session	Speakers	Subject
09:00~09:30		Registration
1 09:30~10:00	Dr. Soo hong Kim	Opening Ceremony
2 10:00~11:30	Prof. Yong Kun Kim	Sequential extraction approach in contemporary reconstructive dentistry
3 11:30~12:30	Prof. Inaki Cercadillo	Sinus lift augmentation: how to achieve an easy and predictable approach

Turkey 🇹🇷

## Session 7

(18:00~18:30)

### Extra short 4mm implants used to rehabilitation of atrophic posterior mandible.

- Specialized in soft tissue management, periodontology surgeries, advanced bone surgeries and implantology
- Scientific and Clinical Consultant at Cowellmedi Turkey
- DDS, Department of Periodontology, University of Süleyman demirel, Isparta, Turkey
- Graduated from University of Atatürk, Erzurum, Turkey

# Together Once Again! Antalya, Turkey

Antalya is Turkey's pearl and the most popular holiday destination on the Mediterranean coast, attracting more than 3 million tourists annually. It is home to about 100,000 foreigners and tourists from all over the world who fall in love with the city and consider it a second home.

Despite the advances and modernization of these days, Antalya has not lost its originality and authenticity, and its historical and architectural monuments are carefully protected by the national government and municipal authorities. As a result, the old town, port and Kalec Fortress coexist beautifully with modern skyscrapers, making the city even more dazzling and becoming a favorite holiday destination for foreigners and locals.

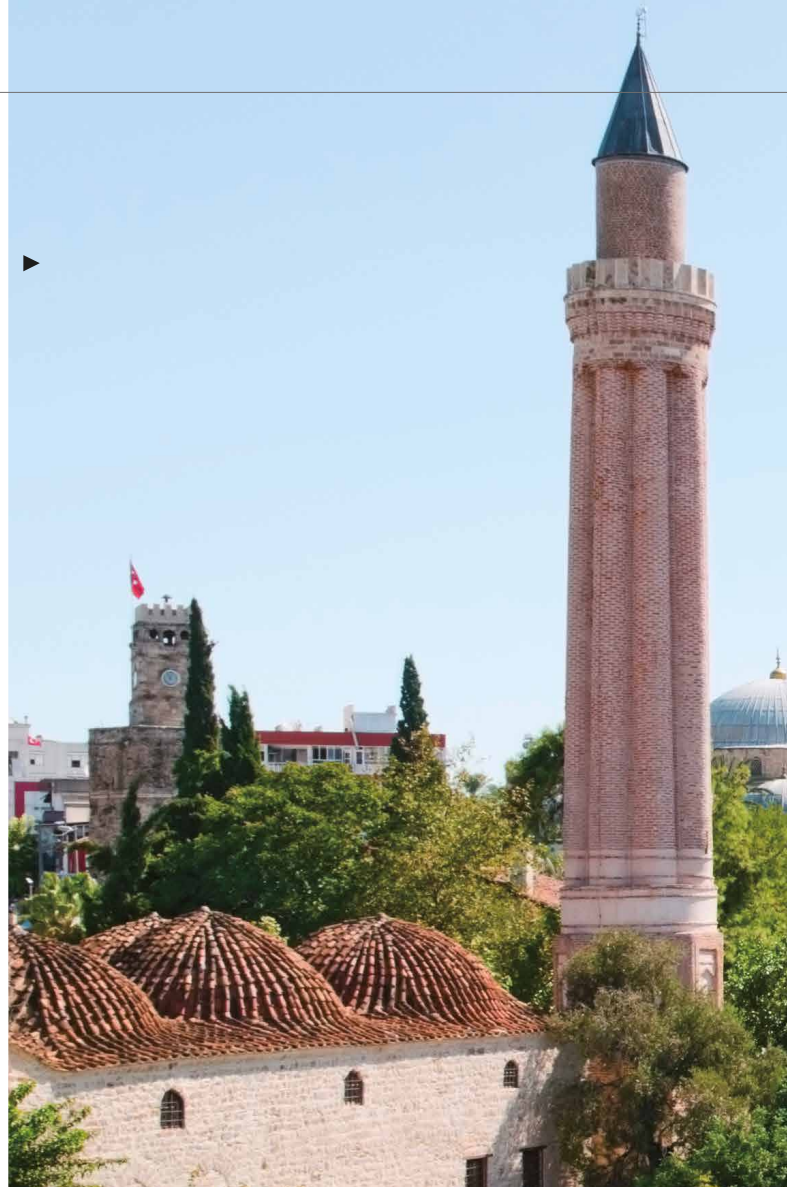

**Republic Square** is the city's main square and one of its most popular attractions. One of the most attractive things about the square is that it is adjacent to the harbor and offers great views. And the Atatürk Monument in the square was built in 1964 with bronze work and this monument is also known as the National Ascension Monument. Monuments and squares commemorate Atatürk's rise to power.

In republic square, you can see the fountains dancing under the sun, admire the amazing views all the way to the marina below, or walk across the street to visit the İbri Minare Mosque for better panoramic views of the city.

## Hadrian's Gate

The Gate of Hadrian is a symbol of Antalya. It is a decorative marble arch built in the 2nd century BC, and it is a building that shows the glory of the Roman period. It was built to commemorate the visit of Emperor Hadrian, the 14th emperor of the Roman Empire, to the area around Antalya. Currently, it serves as a gateway into and out of the old town. Under Hadrian's Gate, under the old town, there are remains of an ancient road.

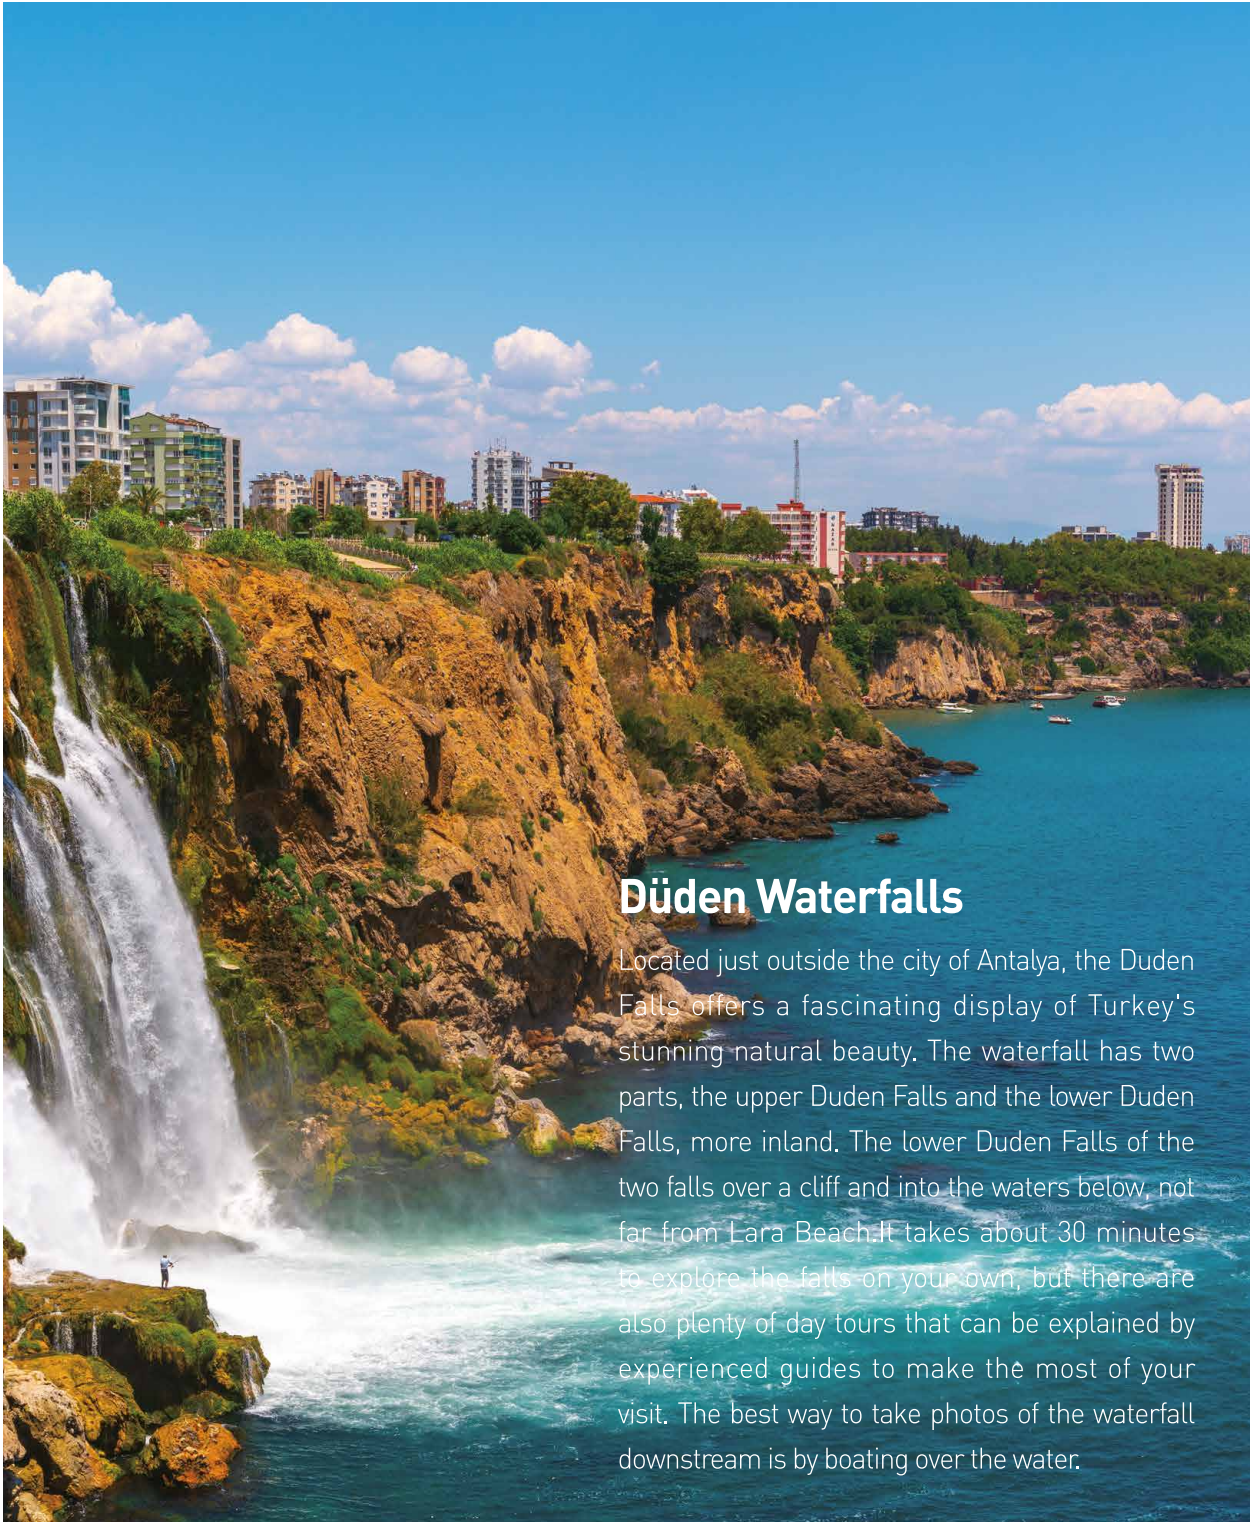

## Apollon Temple

Named for Apollon - god of light, beauty and art, and one of the principle gods of Side - the Temple is worth seeing, featuring magnificent historical and archaeological remains dating from 150 A.D. The Temple of Apollon, enchanting with its warm colours of the sun, was built next to the port to signify that Ancient Side was shielded by the gods. The temple, where you will fall in love with sunsets observed through the white huge columns, is waiting for you in all its glory.

## Düden Waterfalls

Located just outside the city of Antalya, the Düden Falls offers a fascinating display of Turkey's stunning natural beauty. The waterfall has two parts, the upper Düden Falls and the lower Düden Falls, more inland. The lower Düden Falls of the two falls over a cliff and into the waters below, not far from Lara Beach. It takes about 30 minutes to explore the falls on your own, but there are also plenty of day tours that can be explained by experienced guides to make the most of your visit. The best way to take photos of the waterfall downstream is by boating over the water.

NIRVANA  
HOTELS

# SEA CITY LUXURY SPORTS CULINARY
